Presented By:

Program Management Consultant

Recommended Contracting Actions Summary Construction Change Orders

Construction Change Orders		
WP-42A.1/A.3, 4 th Street Pump Station Change Order 09	ICS, Inc.	\$12,506.80
 Fuel level Sensors, Floodwall coping, and Trash Rack Modifications 		
Total Construction Change Orders		\$12,506.80

Meeting Date: 01/17/2017

Technical Advisory Group Recommendation

RECOMMENDATION FOR ACTION:

The Technical Advisory Group has reviewed and recommends approval of the following Contract Action(s).

SUMMARY OF CONTRACTING ACTION:

Per the contract review and approval procedures, Section 5.C(2), that were adopted by the Diversion Authority on November 10, 2016, the Owner's Program Management Consultant (PMC) or Engineer of Record (EOR) shall submit a construction Change Order request to the Technical Advisory Group. The Technical Advisory Group shall review the Change Order request during its next regular meeting after receiving the Change Order request, and make a recommendation as to approval or denial of the Change Order request.

The Owner's Representative has reviewed and recommends the following Contract Action(s):

Description Budget Estimate (\$)

ICS, Inc.

Change Order #09 \$12,506.80

WP-42A.1/A.3, 4th Street Pump Station and Floodwall – Fuel level Sensors, Floodwall Coping, and Trash Rack Modifications.

Summary of Contracting History and Current Contract Action:

Original Agreement or Amendment	Budget (\$) Change	Previous Project Cost	Revised Project Cost	Project Start	Project Completion	Comments
WP-42A.1/A.3 contract	17,361,616.35	0.00	17,361,616.35	11-Dec-14	11-Nov-16	Awarded 4 th Street Pump Station and 2 nd Street South Floodwall

Change Order 3	(10,570.93)	17,806,634.56	17,796,063.63	11-Dec-14	11-Nov-16	Deduct exterior electrical work and install fence, bollards, and lights at Fargo Highrise
Change Order 4	15,174.67	17,796,063.63	17,811.238.30	11-Dec-14	11-Nov-16	Time extensions and multiple cost adjustments for Engineerand Owner-directed items.
Change Order 5	70,363.71	17,811,238.30	17,881,601.31	11-Dec-14	11-Nov-16	Last of suspended changes, sanitary overflow connection, T&M budget for ACM removal

Change Order 6	147,079.47	17,881,601.31	18,028,681.48	11-Dec-14	11-Nov-16	Last of suspended changes, erosion blanket, still wells, unsuitable materials and additional asbestos wrapped pipe.
Change Order 7	11,147.81	18,028,681.48	18,036,371.39	11-Dec-14	13-Sept-17	Sanitary Overflow Brackets, ST-4 Flared End with Grate, Sluice Gate Actuator Covers and 2" nuts, Updated Lot Grading Plan, Milestone and Project Completion Date Resets, and Time Additions.
Change Order 8	2,386.00	18,036,371.39	18,038,757.39	11-Dec-14	13-Sept-17	Reprogramming Display and Generator Building Fuel Storage Area Drain
Change Order 9	12,506.80	18,038,757.39	18,051,264.19	11-Dec-14	13-Sept-17	Fuel Sensors, Floodwall Coping, and Trash Rack Modifications

DISCUSSION

Change Order No. 9 increases the Contract Price by a total of \$12,506.80 as listed below:

- 1. **Fuel Level Sensors.** The generator fuel tank's fuel level sensing system is specified to alarm at three (3) levels: low level alarm at 15% capacity, a high level alarm at 95%, and a high-high level alarm at 98% capacity. This Owner requested change will add three level sensing points: 25%, 50%, and 75% capacity, to allow better monitoring of fuel levels. Four systems were proposed by Fusion, the Contractor's electrical Subcontractor and the Owner selected Option A as the preferred option. The 2nd Street pump station was outfitted with a similar sensing system that monitors these additional fuel tank levels. This change adds \$1,906.80 to the Contract Price. The Owner's Representative and Engineer have reviewed this cost and found it to be reasonable.
- 2. **Floodwall Coping.** At the Owner's request, higher pitched floodwall coping is being incorporated on the in-town floodwalls to discourage personal access to the top of the wall once complete. This change is consistent with changes made on 42F.1S and 42F.1N. This adds \$4,205.00 to the Contract Price for the Contractor to furnish and install higher pitched wall caps than were originally specified. The Owner's Representative and Engineer have reviewed this cost and found it to be reasonable.
- 3. **Trash Rack Modifications.** The installed trash racks do not operate smoothly and jam frequently during operation. The Engineer, with assistance from the Contractor, has researched and developed a solution that includes fabricating and installing additional guide rollers on each of the trash racks. This change adds \$6,393.00 to the Contract Price to fabricate, install, and test the guide rollers. The Owner's Representative and Engineer have reviewed this cost and found it to be reasonable.

		Change Order No.	09
Date of Issuance:	01/26/2017	Effective Date:	12/01/2016
Owner: Metro	Flood Diversion Authority	Owner's Contract No.:	WP-42A.1/A.3
Owner's Representative:	CH2M HILL Engineers, Inc.	Owner's Representative Project No.:	435534
Contractor:	ICS, Inc.	Contractor's Project No.:	1114
Engineer:	Houston-Moore Group, LLC	Work Package No.:	WP-42A.1/A.3
Project: Fargo-	Moorhead Area Diversion _Contra		cation and Gatewell odwall South

The Contract is modified as follows upon execution of this Change Order:

Description:

1. FUEL LEVEL SENSORS

Add \$1,906.80 to the Contract Price to accommodate additional fuel level sensors that will monitor the 25%, 50%, and 75% fuel levels in the generator fuel tank.

2. FLOODWALL COPING

Add \$4205.00 to the Contract Price for the contractor to furnish and install higher pitched wall coping for the floodwall south of 2nd Street.

3. TRASH RACK MODIFICATIONS

Add \$6,393.00 to the Contract Price to accommodate the installation of modifications to the trash racks.

Adding Fuel Tank Sensors

Mr. Smith,

The attached costs are to add level sensors to the fuel storage tank. The added sensors will monitor the 25%, 50% and 75% fuel levels in the fuel tank.

DESCRIPTION	U.M.	UNITS	UNIT PRICE	EXT. PRICE
Fuel Tank Sensors	LS	1.00	\$1,906.80	\$1,906.80
			TOTAL PRICE:	\$1,906.80

The level sensors will be added per the attached quote from Fusion Automation OPTION A. The proposed sensor information is also attached to this quote.

If you have any questions regarding the above, please contact me at your earliest convenience. Sincerely,

Gary Beeter ICS, Inc.

Vice President

Cc: Peter Chitwood/CH2M

CHANGE ORDER PROPOSAL # E20

DATE: NOVEMBER 30TH, 2016

PROJECT: FARGO 4TH STREET PUMP HOUSE FLOOD RISK MANAGEMENT

SUMMARY: ADDITIONAL TANK READING LEVELS

Additional sensor to monitor 25%, 50% and 75% fuel levels in fuel tank like 2nd street.

OPTION A: HTF 3 float stem sensor

- Only measures 3 set levels
- Electronic feedback
- Labor for Install

TOTAL \$1,816.00

OPTION B: Deep Product Level Gauge

- Direct Reading Gauge
- High Density Polyethylene Plastic Float
- Measures fuel level from 0% to 100% full
- No PLC control: No electronic feedback

TOTAL \$109.00

OPTION C: Clock Gauge w/Alarm

- Direct Reading Gauge
- Alarm System
- Uses floats
- No PLC control; No electronic feedback
- Labor for Install

TOTAL \$1,980.80

OPTION D: Continuous Level Sensor

- Uses float
- Measures fuel level from 0% to 100% full
- Electronic Feedback
- Explosion Proof Rated
- Labor for Install

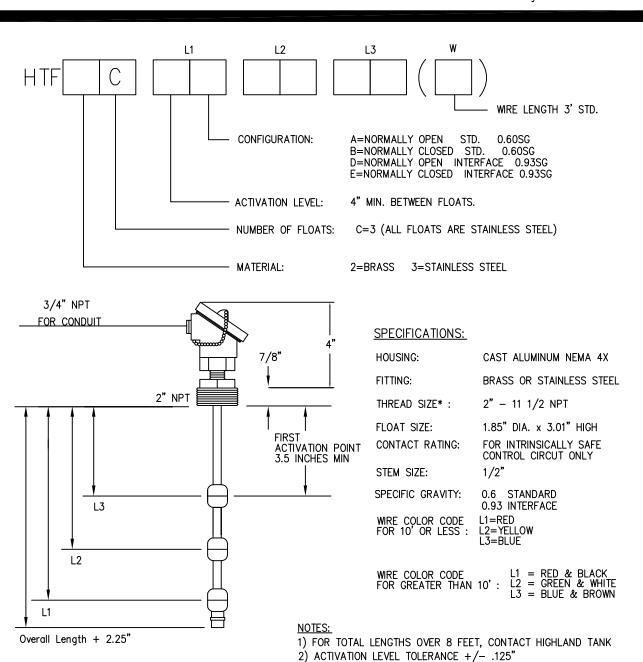

TOTAL \$2,739.22

3) CONSULT FACTORY FOR OPTIONAL MOUNTING OPTIONS

Direct Reading Gauge—Type D

Part Number— D-(size opening)-(tank depth)+(ext)-(list options) Sample—D-2-48+12

What it is:

Top mounted liquid level gauge that can measure from 6 inches to 144 inches in depth. Bushing size can be 2", 1.5", or .75". Gauges are custom made in house to fit your tank. Can also accommodate for double walls and pipe risers.

Additional Options - Not included:

Audible Alarm Accessory: This add on feature can turn your mechanical gauge into an audible Hi or Lo level alarm.

LED At-A-Glance Accessory: Another add on feature. This can give your mechanical gauge remote reading capability.

Gauge Guard: A cover that protects the exposed plastic components on top of the gauge.

Replacement Parts -

D-Kit - Replaces all of the gauge components from the red lock nut and up. Includes: Red HDPE Plastic Nut, Duro Nitrile Gasket, Plastic Cellulose acetate inner and outer calibration.

DG-Kit-ALN - Replaces all of the gauge components from the red lock nut and up with upgraded parts. Includes: Aluminum Lock Nut, Duro Nitrile Gasket, Plastic Cellulose acetate outer calibration, Glass inner calibration.

Instructions for Operation:

This gauge is a simple volume reading tool. The top of the red indicator is an indication of your approximate fuel level in your tank. Once installed, you simply view the calibration to monitor your tank level. Indicator is calibrated in eighths of a tank on one side, and quarters of a tank on the other.

Model 918 Clock Gauge and Alarm Series

SPECIFICATION SHEET

The Morrison "clock gauge" displays the liquid level of product stored in an aboveground storage tank. Measures the liquid level in tanks up to 12 feet high. The 918 audible alarm sounds when the liquid level in the tank reaches the user's specified level.

Gauge features

- Easy to install in a single 2" tank top opening, easy to calibrate
- Gauge face displays level reading in feet and inches. The hour hand (short hand) displays the number of feet and the minute hand (long hand) accurately displays the number of inches
- Gallon or liter reading gauge models available
- Accurate to ½ of an inch
- Easily read from 30 feet away
- Vapor tight construction and fog free design
- Gauge rotates 360° making it easy for the face to be read from the desired orientation
- Visual indicators for high level (red) and low level (green)
- Floats fit through a 2" schedule 40 pipe nipple
- Drop tube float compatible with Morrison 419 2" drop tube; reduces float entanglement when turbulent conditions are present
- 918T and 918FT series are compatible for use with Diesel Exhaust Fluid (DEF)

The 918 alarm box can be paired with a variety of Morrison 918 clock gauges or level sensors. Alarm set point calibrated at installation. The alarm box is compliant with UL 913 and CSA 157 intrinsic safety standards.

Alarm features

- · Audible and visual indicators
- Self-powered by long-life replaceable lithium batteries
- Monitor up to four sensor signals
- User-defined alarm labels
- · Visual alarm indicators easily identify which sensor is alarming
- Compatible with 918/918 TCP gauging equipment
- Low battery visual indicator
- Audible alarm sounds 90 dB alarm at four feet away
- Modular contacts make alarm devices easy to install
- In compliance with UL 913 and CSA 157 intrinsic safety standards
- Corrosion-resistant and water-resistant housing for long life
- Intrinsically safe for Class I, Division 1 and 2, Group D hazardous location

Option C

Alarm features (continued)

- Audible alarm auto silence mode (10 minutes)
- 918/918F clock gauge with 918S, 918D, or 918Q alarms are Florida DEP EQ527 approved

XM/XT-800 Series – Compact Analog Sensors

- Stainless or Brass Construction
- ▶ 1/4" Resolution
- Lengths to 144 inches (366 cm)
- OEM Configurations Available

These compact transmitters feature the rugged durability of stainless steel or brass construction. The XM-800 series provides analog output, and can be combined with GEMS Digital Meter Receiver Stations and compact Level Cubes described in this catalog. Our versatile XT-800 Series adds a choice of signal conditioning for use with GEMS digital bargraph receivers or other digital display and control equipment.

Approvals

XM-800 and XT-800 Series transmitters may carry the following commercial approvals:

FM Approved, Explosion-Proof (J-Box and Stainless Steel Float required).

SUL-Recognized.

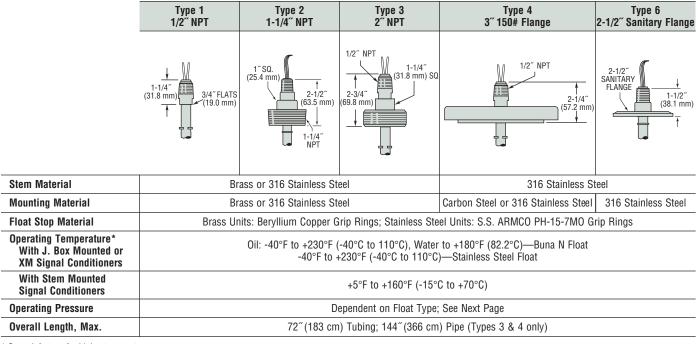

XM-800 Series transmitters only:

CSA Certified

XT-800 Series transmitters only:

FM Approved, Intrinsic Safety (J-Box and Stainless Steel Float required).

1. Mounting Types

^{*} Consult factory for higher temperature ranges.

2. Float Types

Based on the overall length required by your tank, select from two main subsets of floats below; further refine selection based on material and performance parameters.

		For Overall L	For Lengths Greater Than 72" (144" Max.)			
Float Material	Bun	a N	Stainle	ss Steel	Buna N	Stainless Steel
Float Dimensions	(31.8mm) DIA. TYP. 1-5/16" (33.3mm) TYP. 5/16" (7.9mm)	1-13/16" (47.6 mm) 1-13/16" (46.0 mm) 1-7/P.	1.63" (40.9mm) DIA. TYP. 1.40" (35.6mm) 5/16" - 3 (7.9mm)	2-1/16" (52.4 mm) DIA TYP. 2-3/4" (69.8 mm) TYP. 5/16" (8 mm)	1.86" (47.2mm) DIA. TYP. 1.81" (46mm) 1/2" 1 (12.7mm)	2.04" (51.7mm) DIA. TYP. 2.68" (68mm) 1/2" (12.7mm)
Compatible Mountings	1, 2, 3, 4, 6	1, 3, 4	1, 3, 4, 6	1, 3, 4	3, 4	3, 4
Part Number	164255²	43359	156490	43590	69654	52084
Min. Liquid Spec. Gravity	.55	.55	.70	.75	.55	.75
Operating Pressure, Max.1	150 psi (10 bar)	150 psi (10 bar)	80 psi (6 bar)	300 psi (21 bar)	150 psi (10 bar)	300 psi (21 bar)
Operating Temp., Max.	Water: 180°F (82°C) Oil: 230°F (110°C)		230°F (110°C)³		Water: 180°F (82°C) Oil: 230°F (110°C)	230°F (110°C)*

Option D

Notes:

- 1. @ Ambient Temperature
- Recommended for Type 2 mounting only.
- Consult factory for higher temperature range

3. To Determine Dimensions

- B: Overall Length = Inches of Indication + C + X (See Table at Right)
- C: Distance From Bottom of Mounting to Float Stop (Customer Specified):
 - 1/4" (6.4mm) Minimum
 - 1-1/4" (31.8mm) Minimum on Type 1, XT Series only.

Calculating Length

To find Overall Length when Inches or Indication is known:

• Inches of Indication + C* + X = Overall Length

To find Maximum Inches of Indication when Overall Length is known:

- Overall Length C* X = Maximum Inches of Indication
- *C dimension is determined by customer.

Float	Factor –	X
-------	----------	---

Float Part Number	х
164255	2.0" (50.8)
43359	2.5" (63.5)
156490	2.062" (52.4)
43590	3.437" (87.3)
69654	2.687" (68.3)
52084	3.625" (92.1)

Inch (mm)

4. Input/Output

For XM-800 Series, no special output designation is necessary. For XT-800 Series, specify the desired signal conditioning by Part Number.

Additional information about GEMS signal conditioning modules is found on Page C-16.

Series	a Innut Valtage Output Signal Bort		Part Number	Electrical Termination	Compatible Mountings			
361162	Input Voltage	Output Signal	rait Nullibei	Electrical Termination	Type 1	Type 3	Type 4	
XM-800	10 to 30 VDC	Proportional Voltage	_	Lead Wires (3), #22 AWG, 24" (60.9 cm), PTFE Jacket	•	•	•	
	8 to 24 VDC*	0-5 VDC	51965	Lead Wires,	•	•	•	
	14 to 30 VDC*	0-12 VDC	51970	#22 AWG, 24" (60.9 cm), PTFE Jacket	•	•	•

CH2M Attn: Tyler Smith 64 4th St. N. Fargo, ND 58102

Re:

In-Town Levees 2nd Street/Downtown Area-Phase 42A.1/42A.3 Work Package 42A.1/42A.3 Floodwall Coping Caps

Mr. Smith,

The attached cost is for a design change to the floodwall coping for the south end of the floodwall. The request for pricing the change was from HMG.

DESCRIPTION	U.M.	UNITS	UNIT PRICE	EXT. PRICE
Material	LS	1.00	\$4,205.00	\$4,205.00
			TOTAL PRICE:	\$4,205.00

The City of Fargo has been adding a higher pitched floodwall coping to detour climbing on the floodwalls. The price is to all the taller wall caps to the wall south of the closure on 2nd street only. This project did not call for that design originally. The pricing above is to procure the new coping, offload onsite, and remove the original coping from site.

If you have any questions regarding the above, please contact me at your earliest convenience. Sincerely,

Gary Beeter ICS, Inc.

Vice President

Trash Rack Mods

Mr. Smith,

The attached cost is for a design change to the Trash Rack Rake System in the pump station. Glen Krogman with HMG requested the change so that the trash racks would operate smoother.

DESCRIPTION	U.M.	UNITS	UNIT PRICE	EXT. PRICE
Material	LS	1.00	\$1269.00	\$1269.00
Labor	LS	1.00	\$5124.00	\$5124.00
			TOTAL PRICE:	\$6393.00

The trash rack rake modifications were requested by HMG to improve functionality. Glen Krogman with HMG provided a sketch dated 12-07-16 showing the changes and is the basis for our pricing. It is our understanding that the design was based on a prototype that operated in the field. This price includes materials, labor for installation, as well as labor to help Glen in the field with fitting his prototypes.

If you have any questions regarding the above, please contact me at your earliest convenience. Sincerely,

Eric Bye ICS, Inc.
