Site Reconnaissance Checklists

SITE RECONNAISSANCE CHECKLIST

Date: 7/26/00

Name of Environmental Professional: BC

Property Address:

Property Name: 180334406

Describe the current use of property. farm house

Description of structures.

Exterior

house, garage, barn

Interior

Not seen

What utilities are available on site and who are the providers?

propane, electric

Describe current uses of adjacent property.

farm land, vacant field north

Describe any areas of disturbed soil or new pavement.

Is there any evidence of spills on site?

Are there any areas of dead or distressed vegetation?

Are there any on-site wells?

asked

Describe any surface water bodies on site.

Describe on-site storm drainage. Direction of run-off.

Do on-site ditches have signs of sludge, discoloration or oil sheen?

Describe above ground storage tanks present. Describe their condition and containment.

Describe evidence if any of underground storage tanks.

Describe any drums on site. Are they properly labeled? In containment?

Describe any sumps or pits on site.

Describe raw materials stored on site.

Describe on site waste storage.

Describe evidence of hazardous waste storage or disposal on-site

Describe bulk loading/unloading areas.

SITE RECONNAISSANCE CHECKLIST

1. Date: 8/5/10
2. Property Address: 1025 Center Avenue Dilworth, MN
3. Describe the current use of property: Asphalt Production
4. Description of structures:
 - Asphalt Plant and Related Equipment
 - Office and Shop Building
 - i. Exterior: Block/Brick
 - ii. Interior: Shop maintenance and storage
 - Storage Building
 - i. Exterior: Vinyl siding
 - ii. Interior: Storage of equipment, parts, and empty drums.
5. What utilities are available on site and who are the providers? Natural Gas (Xcel Energy), Electricity (Xcel Energy), Water (City of Dilworth)
6. Describe current uses of adjacent property: Railroad to the South, Elevator to the East, Corn Field to the West, and U.S. Highway 10 to the North.
7. Describe any areas of disturbed soil or new pavement: Several areas have been newly excavated and soil replaced in accordance with MPCA Leak Corrective Action 00013580 (see attached Excavation Report submitted to MPCA by West Central Environmental Consultants).
8. Is there any evidence of spills on site? There are some small areas where equipment leakage was observed.
9. Are there any areas of dead or distressed vegetation? There was one area of dead vegetation, likely due to equipment/part storage on the area.
10. Are there any on-site wells? Yes, there are several wells on the property. See attached well records.
11. Describe any surface water bodies on site. There are no surface water bodies on site.
12. Describe on-site storm drainage. Direction of run-off. There are two main outfalls from the site to the north, leading to the U.S. Highway 10 roadway ditch.
13. Do on-site ditches have signs of sludge, discoloration or oil sheen? No
14. Describe above ground storage tanks present. Describe their condition and containment.

Gallon Capacity	Product	Tank Composition	Containment	Status
2005 Gallon	Gasoline	Steel	Concrete	In Use
10,000 Gallon	Diesel Fuel	Steel	Concrete	In Use
17,625 Gallon	Diesel Fuel	Steel	Concrete	In Use
12,000 Gallon	Fuel Oil	Steel	Concrete	Empty/Inactive
265 Gallon	Fuel Oil	Steel	Concrete	Empty/Inactive
10,000 Gallon	Asphalt Cement	Insulated Steel	Earthen	In Use

18,000 Gallon	Asphalt Cement	Insulated Steel	Earthen	In Use
405 Gallon	Motor Oil	Steel	Metal & Inside Shop	In Use
405 Gallon	Hydraulic Oil	Steel	Metal & Inside Shop	In Use
55 Gallon	Motor Oil	Steel	Metal & Inside Shop	In Use
55 Gallon	Hydraulic Oil	Steel	Metal & Inside Shop	In Use
55 Gallon	Hydraulic Oil	Steel	Metal & Inside Shop	In Use
55 Gallon	Transmission Fluid	Steel	Metal & Inside Shop	In Use
1000 Gallon	Used Oil	Steel	Double-walled Tank	In Use
18,000 Gallon	Propane	Steel	Not Applicable	Empty/Inactive
265 Gallon	Flow Through Process Tank	Steel	Earthen	In Use
1000 Gallon	Release Agent	Steel	Asphalt	In Use

15. Describe evidence if any of underground storage tanks. There are currently no underground storage tanks.
16. Describe any drums on site. Are they properly labeled? In containment? There are drums of oil, antifreeze, transmission fluid, lubricant, solvent, used oil filters, used floor dry, and concrete curing agent. The drums are contained and labeled.
17. Describe any sumps or pits on site. There is a sump pit for the slat conveyor at the asphalt plant.
18. Describe raw materials stored on site. Sand, gravel, rock, asphalt cement, and fuel.
19. Describe on site waste storage. Dumpsters and drums are utilized for waste storage.
20. Describe evidence of hazardous waste storage or disposal on-site. This site operates under EPA ID # MND982209769. There is currently not an active Hazardous Waste License as the site does

not generate or store hazardous waste in its normal operations. Waste such as used oil, etc. is sent for recycle through OSI Environmental and Safety Kleen.

21. Describe bulk loading/unloading areas. There are bulk loading/unloading areas at each tank. The loading/unloading areas at the three concrete fuel containments have bermed concrete pads.
