I-29 southbound lane width restriction

FARGO, N.D. – Beginning Tuesday, July 25, 2023, an 11-foot width restriction and 45 mph speed limit will be put into place for the left lane on southbound I-29 from near mile marker 75 to just south of mile marker 76, south of Argusville, North Dakota.

The lane width restriction will be in effect from 7 a.m. to 7 p.m. through Wednesday, July 26, 2023.

Currently, the right lane of I-29 is closed in this same location. The closure is expected to be in effect until August 1, 2023, and is necessary for the construction of the FM Area Diversion project's I-29 bypass.

For more information about the FM Area Diversion project, visit www.fmdiversion.gov.
